Instructions

Please follow the instructions below to complete your midterm exam.

1. Project Development

For this exam, you must build a website that meets the following requirements.
You are to create a **CRUD** (*Create, Read, Update, Delete*) website using the Laravel framework (or another framework of your choice). As Laravel is an **MVC** (*Model-View-Controller*) **PHP framework**, your project must satisfy the following conditions:

- The website must have a minimum of **eight features**, excluding authentication.
- The website must include **login**, **registration**, and **logout** features.
- Your database schema must contain at least one **foreign key**.

You must also submit a **report** that includes the following:

- Database design (conceptual and physical data models).
- A list of all implemented features.
- Screenshots and a brief explanation of each feature on your webpage.
- A clear statement detailing the **work percentage** and **contributions** of each group member (e.g., Rianti Dewi 55% [*describe Rianti's contributions*], Darminto Utomo 45% [*describe Darminto's contributions*].

Finally, deploy your website to a free **web hosting service** and upload your complete source code to your **GitHub** repository.

Grading Rubric:

- Design [**20 points**]
- Implementation [**50 points**]
- Analysis/evaluation [**25 points**]

- Conclusion [**5 points**]
- **Total**: [**100 points**]

2. Academic Integrity Pledge

To prevent plagiarism and cheating, every student must sign and include the following pledge in their report. The signature may be handwritten or digital. Failure to do so will result in a grade of zero (0).

"By the name of Allah (God) Almighty, I hereby pledge and declare that I have completed the Midterm Exam independently. I have not engaged in cheating, plagiarism, or received unauthorized assistance in any form. I further declare that any use of AI tools was limited to a supportive role (such as for grammar checking or debugging), and that the final solution is the product of my own intellectual effort. I understand that I will accept all consequences if I am found to have violated this academic integrity pledge."
